## Founding of Siberia.

In 1082 Yermak, a Cossack chieftain, with chosen warriors set out to subdue a powerful Tartar tribe east of the Urals. Tsar Ivan IV sent orders for the expedition to return. But it was too late; Yermak and his men captured the city of Sibir, the stronghold of the Tartar chief, and this day became the nucleus of Siberia.

## Natural Curiosity.

Nature has placed one of her curiosities on the location of a former sugar mill on the island of Trinidad. The plant has since been reduced to ruins and is overgrown with vegetation. The old sugar mill is a relic of the past and up through its center one of the great growing trees of the island has sprung, spreading its branches out of the top of the huge chimney and is now in full bloom.

## How Criticism Hides.

Censure and criticism never hurt anybody. If false they can't hurt you unless you are wanting in many character; and if true they show a man his weak points and forewarn him against failure and trouble—of his own.

## Why Many Fail.

We limit the success of our own work by our indolence and lack of faith more than any outside circumstances limit it for us. It is not lack of talent as much as lack of courage and effort that circumscribes our usefulness—Exchange.

## African Idea of Beauty.

In Africa a crop of the blackest, coarsest, closest hair imaginable makes a girl the belle of the bazaar, especially if she be plump, with piggy eyes, thick lips, a nose like an India rubber shoe, and a skin that shines like a cooking stove.

## Good Manners.

Good manners, which give color to life, are of greater importance than laws, which are but one of their manifestations. The law touches us here and there, but manners are about us everywhere, pervading society like the air we breathe. Good manners, as we call them, are neither more nor less than good behavior, consisting of courtesy and kindness.—Samuel Smiles.

## Moroccan Charm.

Moroccan wives have a recipe for winning back affection. The suspicious wife draws a line of honey from forehead to chin and collects the drippings. Then she rubs the tip of her tongue with a fig leaf till it bleeds and soaks seven grains of salt in the blood. This she mixes with the honey and puts the dose in the erring husband's food.

## Home of Nymphs.

Near the cape of Shima, in Japan, there is a village the name of which in Japanese means "The settlement of Nymphs." Woman in this village is the predominant partner. The chief industry is pearl fishing and the women are the fishers. The men stay at home and do the work.

## Have Record for Laziness.

The Todas of India are said to be the laziest people in the world. The men of the household club together to take one wife to support, and then they let her do the work. The Todas have reduced the simple life to the formula: Do only what you must, and very little of that.

## Invented First Chronometer.

The first chronometer of any value was the invention of John Harrison, about 1759, for which he received from the British board of longitude \$50,000 as a part of \$100,000 which "they offered for many years as a reward for a thoroughly trustworthy timekeeper."

## Roll Over, Bill, You're Snoring.

Man, say the scientists, is the only living thing that ever sleeps on its back. Perhaps it is from a feeling of pride that some of us make so much noise when indulging in this accomplishment.
